

## CSE 4226

### Network Programming Lab

#### Project Name: Profile Viewer

Nowshin Nawar Arony

14.02.04.067

#### How to run the project:

Create a database named **myinfo** in phpmyadmin. Then import the database file myinfo.sql in this created database.

No password is required to connect the database. Connect the mysql database in Netbeans then run the project.

#### Main features:

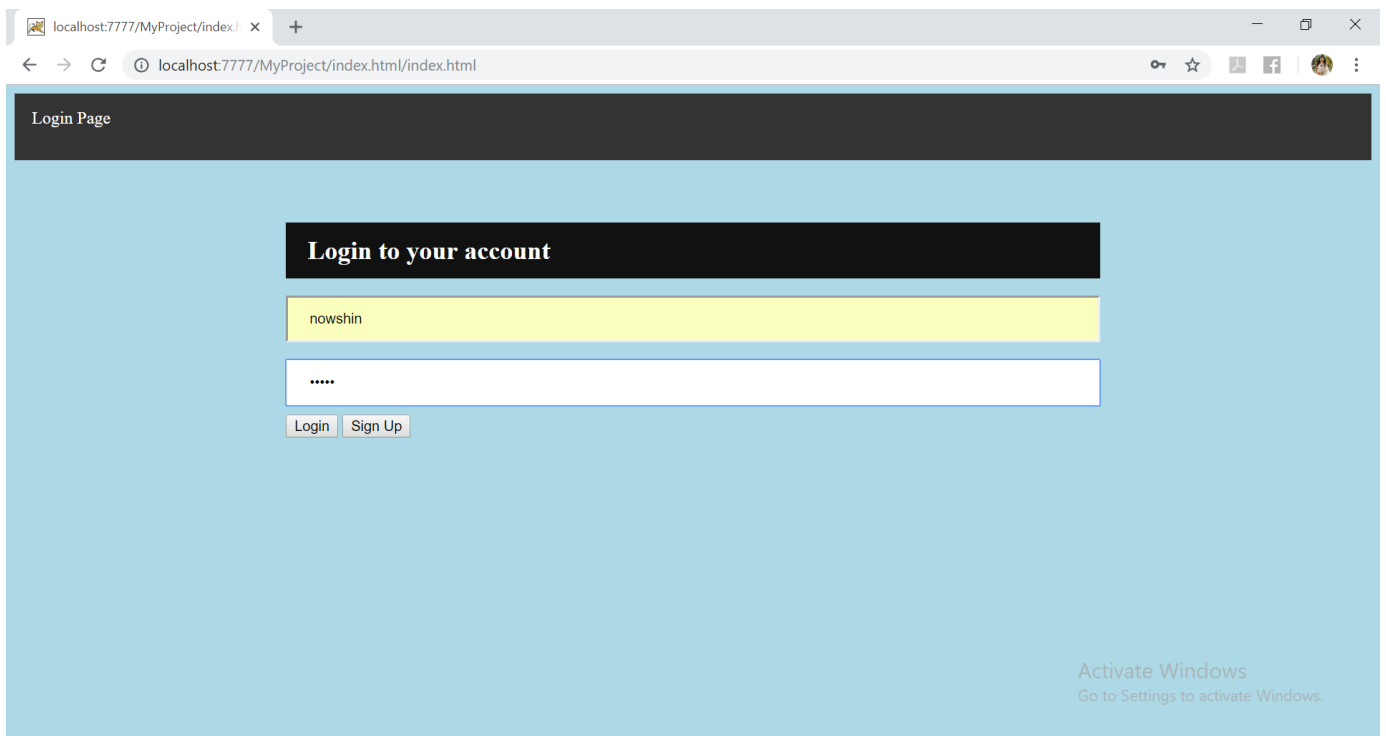

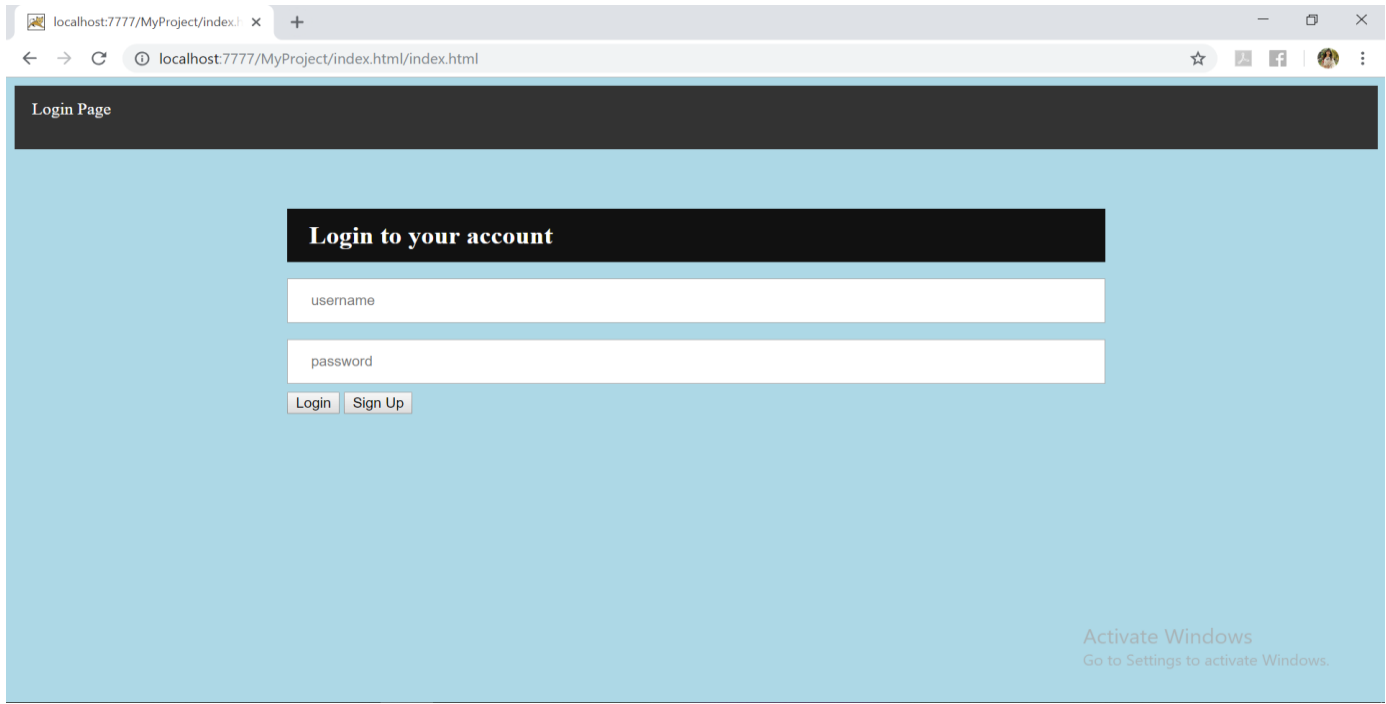

1. User login
2. User registration
3. Home page which has multiple profiles in a table. A user can only view those profiles in detail.
4. User can view and edit his/her own profile.
5. User logout

## HomePage:

You can initially login with:

Username: nowshin

Password: 12345

## Sign Up Page:

Sign up using any data. But the mail should be valid.

localhost:7777/MyProject/index.html/SignUpPage

Activate Windows  
Go to Settings to activate Windows.

## Home Page After Login:

Here the registered full profiles can be viewed by clicking the **View** buttons.

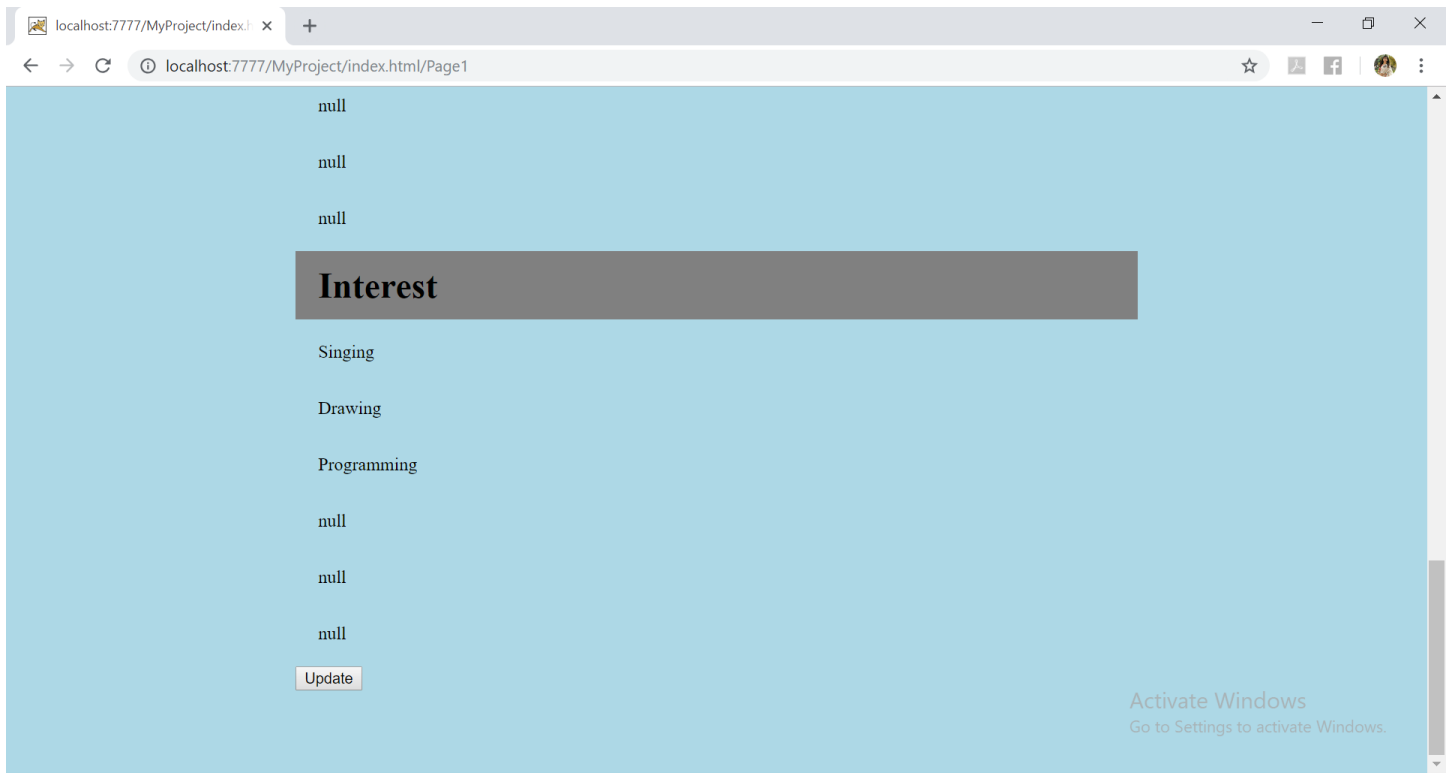

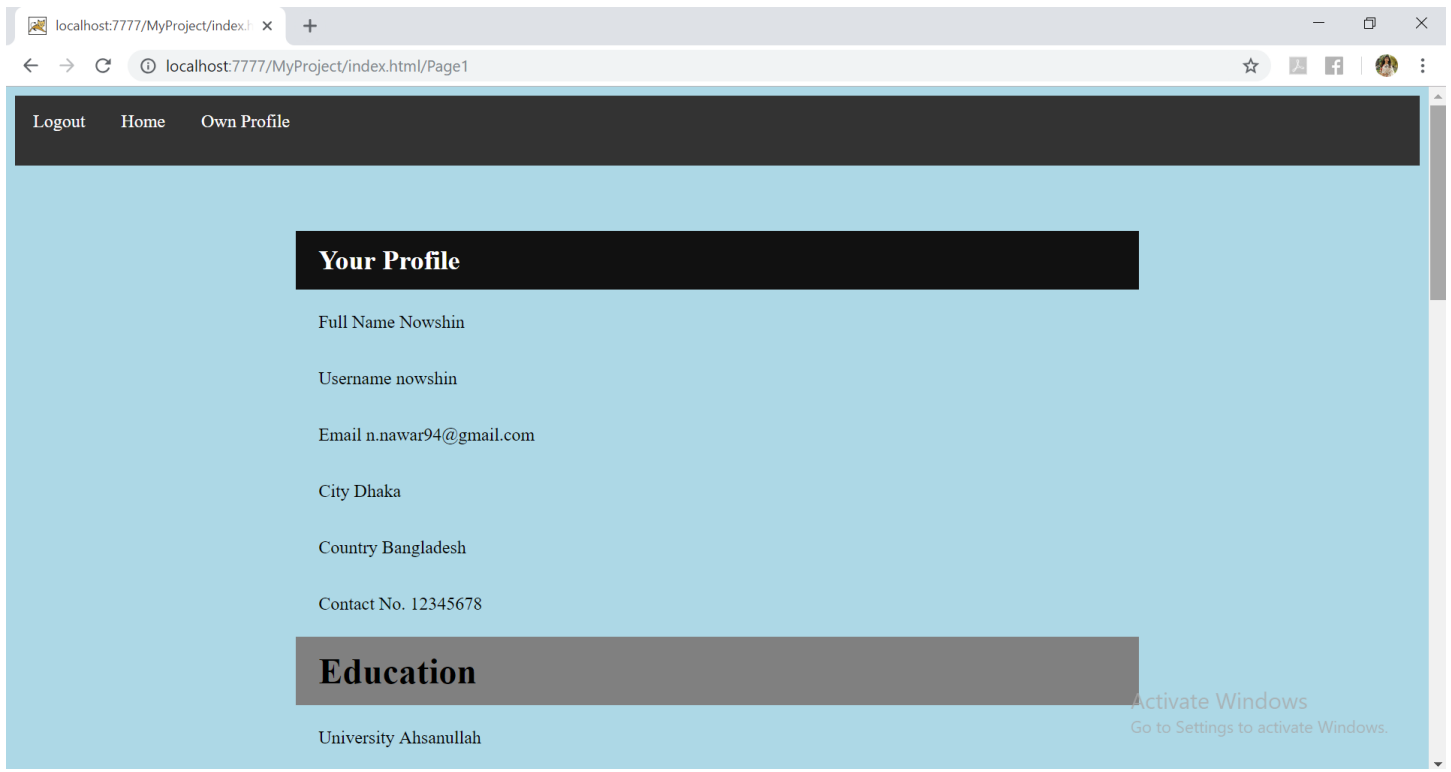

The screenshot shows a web browser window with the address bar displaying 'localhost:7777/MyProject/index.html/login'. The page has a dark navigation bar with links for 'Logout', 'Home', and 'Own Profile'. Below this is a light blue header section titled 'See Profiles'. The main content area features a table with four columns: 'Name', 'Location', 'Educational Background', and 'Full Profile'. Each row in the table contains a user's name, location, educational background, and a 'View' button. The table lists eight users: HJK, WSD, Harry Potter, DONAL, Nowshin, sdgdgdgdg, bmn, and GHI. The last two rows have 'null' for location and educational background. A watermark 'Activate Windows' is visible in the bottom right corner of the browser window.

Name	Location	Educational Background	Full Profile
HJK	Rajshahi, Bangladesh	BSC in EEE	<a href="#">View</a>
WSD	Khulna, Bangladesh	BBA in Accounting	<a href="#">View</a>
Harry Potter	London, England	MBBS	<a href="#">View</a>
DONAL	New York, USA	BSC in MPE	<a href="#">View</a>
Nowshin	Dhaka, Bangladesh	BSC	<a href="#">View</a>
sdgdgdgdg	null, null	null	<a href="#">View</a>
bmn	null, null	null	<a href="#">View</a>
GHI	null, null	null	<a href="#">View</a>

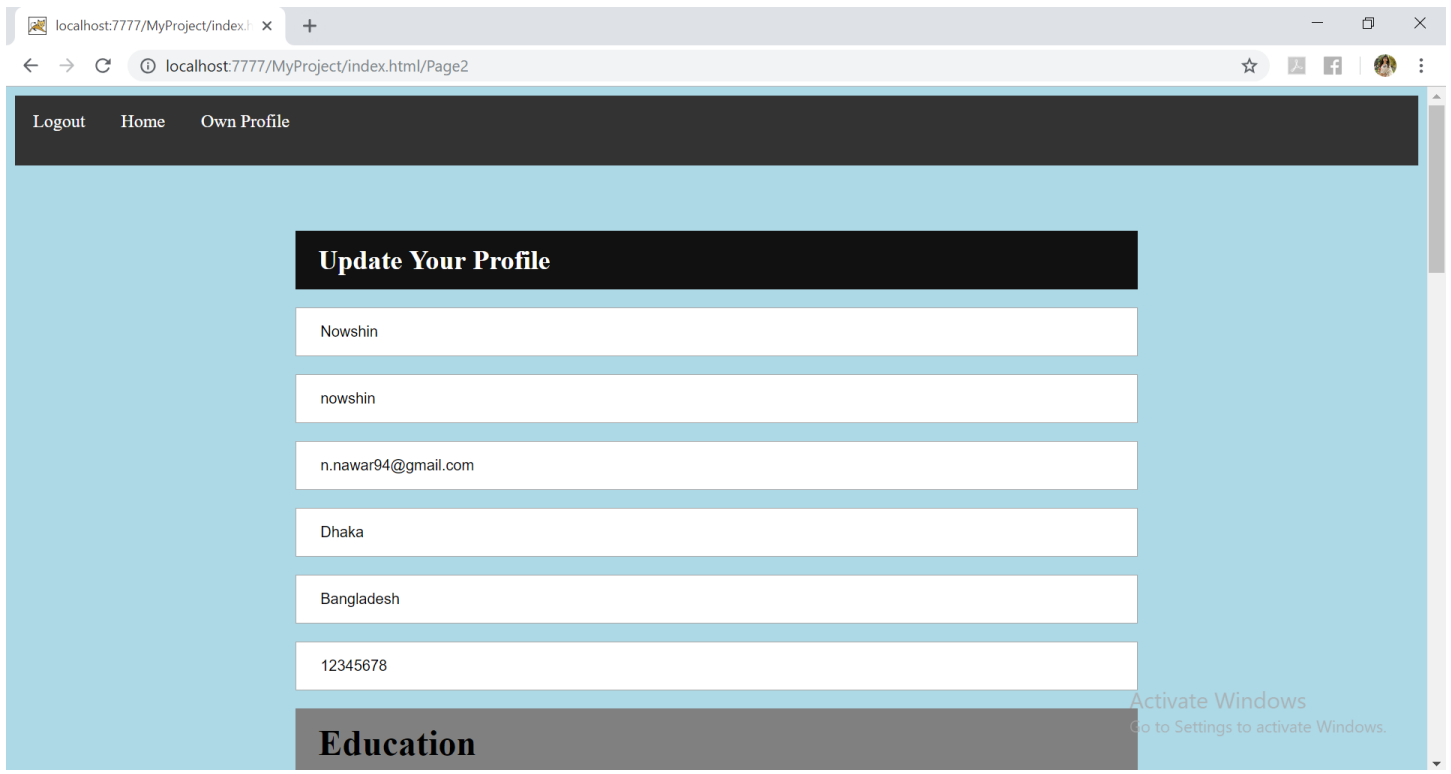

## Own Profile Page:

A user can update his/her profile by clicking the **update** button.

## Update Page:

After updating the data user has to click **save** button at the bottom of the page.

The screenshot shows a web browser window with the address bar displaying 'localhost:7777/MyProject/index.html/Page2'. The page has a dark navigation bar with links for 'Logout', 'Home', and 'Own Profile'. The main content area is light blue and features a black header for the 'Update Your Profile' section. Below this header are several white input fields containing the following text: 'Nowshin', 'nowshin', 'n.nawar94@gmail.com', 'Dhaka', 'Bangladesh', and '12345678'. At the bottom of this section is a dark grey header for the 'Education' section. A Windows watermark is visible in the bottom right corner of the browser window.
